

# NTDP-631: Special Populations

IT3C lecture is the final component in the integrated therapeutics series designed to combine the pathophysiologic and pharmacotherapeutic management of various disease states encountered routinely by pharmacist practitioners. Where appropriate, cultural competency principles will be integrated with lecture topics. Student knowledge of basic pharmaceutical principles, acquired in IT-1, will be applied to clinical principles of additional organ systems presented in ITIII-C.

**Credits:** 3

**Program:** Non-Tradi Doctor of Pharmacy
