

SWHB-310: Human Sexuality

(Elective) Offers an introduction to selected, empirically based biological, sociological, cultural, psychological theories and research on human sexuality. Focuses on sexual development throughout the life span (childhood to old age) with consideration given to perspectives (historical and current) and treatment of sex and sexuality. Examines the relationship between human sexuality, physical and emotional disability, service delivery, societal attitudes and values, and the impact of discrimination, oppression and economic injustice.

Credits: 3

Program: Human Behavior & The Social Environment
