

SWPS-302: Human Service Administration

(Advanced course, Practice Methods III) Addresses in greater depth and specificity knowledge of the history, theoretical frameworks, and functions and skills for managing human service organizations and leading culturally diverse community groups, boards, and committee meetings. Examines staff development, the role of social work supervision, collaboration and partnership development, team building, group decision-making and/or problem-solving strategies and use of technology in administration practice. Includes a focus on social planning and budgeting processes for nonprofit organizations.
