

SWRS-305: Practice Evaluation

(Advanced Course) Builds on knowledge and skills of the core research courses, "Research Methods for Social Workers" and "Data Analysis for Social Workers." Course content provides advanced-level knowledge and skills that prepare students to develop, use, critically assess, and effectively communicate empirically-based knowledge in developing and evaluating practice and human service programs. It develops skills in using key evaluative methods that measure the need, effectiveness, fairness, and efficiency of various interventions in achieving stated objectives and desired outcomes for various stakeholders with particular focus on at risk populations design and conduct evidenced-based interventions appropriate for their method of practice and specialized field of practice.

Credits: 3
